

Pocket Carrying Case for BD Vacutainer[®] Tubes

This pocket-sized, durable plastic carrying case from Preiser Scientific holds up to three 10-ml BD Vacutainer Tubes. When you have only a few collected samples to move from the collecting location to the lab, this convenient carrying case is easier to transport than a tray and protects the glass or plastic BD Vacutainer tubes.

- Two-part carrying case includes plastic base with three slots and cover
- Convenient size for up to three 10-ml, 16 × 100 mm, BD Vacutainer Tubes
- Protects set of tubes to be safely carried by hand or in a pocket
- Durable polypropylene case is reusable.
